To Whom It May Concern

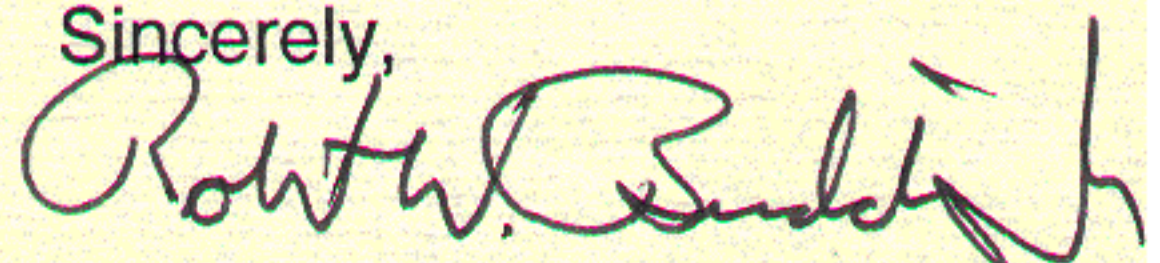

Subject: Letter of Recommendation for Bryon Lewis

I have had the pleasure of working with Mr. Lewis on a project that S&B Engineers & Constructors performed for Diamond Shamrock in Three Rivers, Texas. I found Mr. Lewis to be a very sharp, capable and hard working individual. Not only did he excel as an electrician, but he also performed the role of the project's instrument technician. He installed, calibrated and commissioned all types of equipment from 3500 HP synchronous starters, to pneumatic control systems to Honeywell TDC 3000 control systems.

Being a problem solver, Bryon strives to understand the fundamentals of any task that is given to him, not just what is required to correct it. I am confident that he can master anything that is presented to him.

If additional information is required, please feel free to contact me at (713) [REDACTED] Home or (713) [REDACTED] Work.

Sincerely,

Robert W. Buddingh P.E.
Project Manager
